

BBLC

BLOCKCHAIN LOYALTY CORP

The open access grid for capital and execution

One holding company. Multiple revenue-stage platforms. One
public-market entry point.

Why BBLC

- Four divisions are live or near-live: Koilink, Orvexa, Capistrail, and iSwiped.
- BBLC is quoted OTC and serves as a single holding-company entry point.
- Koilink and Orvexa are moving through the public-market pipeline.
- Diversified revenue models: subscriptions, transaction fees, issuer visibility, custody.
- Shared governance, compliance, brand, and capital allocation reduce overhead.

One grid. Two sides of the market.

For companies

Raise capital, increase visibility, and connect with investors through Koilink, Capistrat, and iSwiped.

For investors

Discover issuers, execute trades, and manage portfolios through iSwiped, Orvexa, and Capistrat.

InfernoGrid adds compute-marketplace upside once live.

Portfolio overview

Koilink

Transactional banking and custody. 98% application complete. OTCID/OTCQB pipeline.

Orvexa

Premium self-directed trading. Beta functional. BBLC owns 19.9%.

Capistrat

Investor discovery and connectivity. Live at capistrat.com.

iSwiped

Card-based public-company discovery. Live at iswiped.io.

Financial snapshot

Financial metrics, revenue, burn, share count, and valuation will be added once finalised and approved for disclosure.

Please contact IR for the latest approved figures.

Capital strategy

- Advance Koilink through OTCID and OTCQB milestones.
- Secure new licensed brokerage partner for Orvexa.
- Scale Capistrail and iSwiped subscription and issuer revenue.
- Develop InfernoGrid partnerships and technical architecture.
- Maintain transparent IR cadence and public disclosures.
